

Space Meetings Veneto 2023

Preliminary Conference Programme

Space Meetings Forum 15th May 23

14:00 – 14:30 Opening
14:30 – 15:00 The Italian Space Industry: perspectives and how to further grow this sector
15.00 – 15.30 The European Context
15:30 -16:15 Round Table 1: Investing in the Space Industry: M&A & Private Equity and the importance of investments
16:15 – 16:30 Coffee Break
16:30 – 17:00 Golden Power and Space Investment Regulation
17:00 – 17:45 Round Table 2: Financing the Space Industry
17:45 – 18:00 Closing remarks

Space Meetings Veneto 2023: Conference Program – Space Suppliers Summit 16th May 2023

	Hall 1	Hall 2						
09:00 – 11:00	Earth Satellites and Constellations	Modules and infrastructures for extra-terrestrial exploration						
	Patricia Cooper, President & Founder, Constellation Advisory LLP	- Walter Cugno, Vice President Exploration and Science Domain, Thales Alenia Space Italia						
	Emiliano Kargieman, Founder and CEO, Satellogic	- A representative, The German Aerospace Centre (DLR)						
	Edge Computing for Space							
	Buffy Wajvoda, Global Leader & Satellite Solutions,							
	Amazon Web Services							
11:00 -	Future roadmap for Space							
12:00								
	- Mauro Piermaria, Responsabile Strategie e Program	mi, Ufficio Spazio Palazzo Chigi						
	- Munetaka Ueno, Research Directo, JAXA	21.50						
	- Thomas Fouquet, Associate Director - Head of NewSpace, CNES							
	- Cristina Leone, President, CTNA							
	- Luigi Scatteia, Partner - Global Space Practice Leader, PwC							
12:00- 13:00	Official opening Ceremony							
	Veneto Region Exposition Area							
13:00 –	Lunch break							
14:30								

14:30 -	Access to Space	Building a Cleaner Space	Hall 3
16:30	 - Giulio Ranzo, CEO, AVIO - P.Bellomo, AVIO/finnisterrae - Eric Giraud, General Director, Aerospace Valley 	 - Emmanuelle David, Executive Director, EPFL Space Center - Stella Tkatchova, EIC Programme Manager for Space Systems - Lorenzo Tarabini, System Engineer, SENER 	Sustainable Access and Operations for Space - Matias Campos Abad, CEO & Founder, Astralintu Space Technologies - Frederic Baker, Head – Global
16:30 – 18:30	Food for Space & Space for Food Cesare Lobascio, Space Exploration & Science Innovation Lead and Senior Expert Life Support & Habitability, Thales Alenia Space	16:30 – 17:30 Cybersecurity and Space-Based Services	Industrial Partnerships, ClearSpace SA
	Space for Agriculture: An Overview of Applications Using Space Technology or Data, Thierry Chapuis, Application Expert, CNES	17:30 – 18:30 Road to IAC 2024 Milano	
	Space Technologies Spin-Off in Agriculture and Other Civilian Uses, Eytan Eshel, Executive VP Technology and R&D – CTO, Israel Aerospace Industries		
	Space for food and wine: optimizing production and tackling climate change, Vinenzo Barbieri, Chief Marketing Officer, Planetek Italia		

Space

Meetings Veneto 2023: Conference Program

17th May 2023

Hall 1 - Space applications for wine and climate		Hall 2 – Space Suppliers Summit		Hall 3 – Technology Trends for Wine and Agriculture			
monitoring							
09:30 - 09:35	Opening session	09:00 – 11:00	Simulation and Design Solutions for the Aerospace Industry - Marco Savini, Founder, Big Rock	09:00 - 11:00	 A representative, Deep Planet TBC A representative, CNES TBC A representative, AWS TBC 		
09:35 - 09:55	The Italian Copernicus strategy: Earth Observation Data for the sustainable and green transition Andrea Taramelli, IUSS Pavia. National delegate to the Copernicus Committee and to the Copernicus User Forum		 Giuseppe Corrao, Lead System Engineer, ANSYS A representative, H-Farm A representative, Engin Soft 				
09:55 - 10:15	Earth Observation: Monitoring agricultural land remotely Francesco Pirotti, Full professor at Dept of Agronomy, Food, Natural Resources, Animals and Environment (DAFNAE) UniPD		- Integrating Artificial Intelligence Tools in Future Aircraft Propulsion: A Realistic Perspective Prof. Ernesto Benini, President of				
10:15 - 10:35	The application of remote sensing for the assessment of damage from adverse/catastrophic atmospheric events Francesco Pirotti, Full professor at Dept of Agronomy, Food, Natural Resources, Animals and Environment (DAFNAE) UniPD	1	HIT09 Srl and Full Professor of Aircraft Propulsion at the University of Padova				
10:35 - 10:55	The application of remote sensing for the assessment of damage from adverse/catastrophic atmospheric events Luca Furegon, Director of Competitiveness Technical Area at AVEPA Fabio Binotto, Director of ICT at AVEPA		- Simulation and Analysis of Space- Based Applications Using Ansys STK Roberto Gemma, Europe Sales Manager, ANSYS				

10:55	Q&A Session				
_					
11:30					
11:35	Activities on PAC 23-27 (National Agricultural Policy Strategic	11:00	Advanced Materials and Processes for		
- 11:55	Plan): the transition to satellite monitoring Gianluca Bevilacqua, Director Direct payments Technical Area	- 13:00	<u>Aerospace</u>		
11.55	at AVEPA		Solving Long-Term Challenges in the		
	Fabio Binotto, Director of ICT at AVEPA		Space Materials Pipeline		
	, and an		Bianca Cefalo, CEO, Space DOTS		
11:55	Activities in progress from 2020 to date. Monitoring based on		Fuel Cell Activities in the Electrochemical		
_	Sentinel 2 image processing. Problems detected and		Division of Breton S.p.A.		
12:05	overcoming hypotheses		Fabio Bassetto, Electrochemical Technologist, Breton		
	Silvia Majer, Territorial Offices for Hydrogeological Instability at Regione del Veneto		Technologist, Breton		
	negione del veneto				
12:05	Activities scheduled for 2023. Monitoring activities with high	-			
_	resolution satellite images. Operational indications				
12:15	Silvia Majer, Territorial Offices for Hydrogeological Instability at				
	Regione del Veneto				
	Sergio Zen, Forest planning dept at Regione del Veneto				
12:15	From VAIA to the typographical bark beetle (bostrychus) issue	-			
_	- analysis of the event through Earth Observation Data with				
12:25	the prototype of the Territorial Monitoring Platform (PIMOT)				
	of the Veneto Region				
	Daniele Piccolo, Area for the Protection and Security of the				
	Territory at Regione del Veneto				

12:25 - 12:45	The problem of the typographical bark beetle (bostrychus). Description of the phytopathology, population monitoring and analysis of the phenomenon. Development of applications for field monitoring: collection of information on populations and detection of wooded areas Andrea Battisti, Full professor at Dept of Agronomy, Food,				
	Natural Resources, Animals and Environment (DAFNAE) UniPD				
12:45	Q&A Session				
13:20					
13:20 - 14:30	Lunch break	13:00 - 14:30	Lunch Break		
14:30	Optimizing variable rate irrigation in crops integrating model				
15:15	and remote sensing data Francesco Morari, Full professor at Dept of Agronomy, Food, Natural Resources, Animals and Environment (DAFNAE) UniPD	14:30 – 16:30	ТВС		
15:15 -	Opportunities of proximal-to-satellite based grapevine irrigation strategies in Veneto Franco Meggio, Full professor at Dept of Agronomy, Food,				
16:00	Natural Resources, Animals and Environment (DAFNAE) UniPD				
16:00	Satellite based precision irrigation: the experiences in Veneto Agricoltura pilot farms	_			
16:45	Lorenzo Furlan, Director of Agricultural Research Sector at Veneto Agricoltura				
16:45	Precision agriculture for high quality grapes]			
17:30	Massimo Comparini , Deputy CEO ESVP Observation Exploration Navigation at Thales Alenia Space
